

T7P

integrated POS terminal with printer

Get efficient upgrading of authorization-only equipment:

- *Takes up less counterspace with small footprint*
- *Trains cashiers with easy-to-learn, simple-to-use 35-key keyboard*
- *Delivers fast transactions and authorizations*
- *Changes paper, ribbons and printer module easily and quickly*
- *Smart card reader option, EMV-certified*

Ideal for Upgrades

The T7P is designed for upgrading authorization-only equipment and for merchants moving to data capture and debit applications. It features an integrated modular impact or quiet thermal printer.

Reads All Card Formats

The T7P can read all types of credit, debit, check and charge cards and an external PIN pad can be attached for supporting cardholder entry of PIN numbers. Dedicated function keys allow one-step operation of everyday processes.

Additional Benefits

Price/performance benefits of the T7P include savings on user training, reduced telephone line costs and shorter processing and settlement times. The T7P also accommodates new software applications demanded by the marketplace which can be remotely downloaded from a sophisticated Terminal Management System.

Hypercom T7 Terminals. Focused on excellence.

Hypercom Corporation (NYSE: HVC) is the leading global provider of electronic payment solutions that add value at the point-of-sale for consumers, merchants and acquirers, and yield increased profitability for its customers. Hypercom products include secure, Web-enabled card payment terminals that work seamlessly with its networking equipment and software applications for e-commerce, m-commerce, smart cards and traditional payment applications. The company's widely-accepted ePOS-incommerce (epic) framework of consumer-activated, EMV-certified, touch-screen ICE (Interactive Consumer Environment) terminals enable acquirers and merchants to decrease costs, increase revenues and improve customer retention. Headquartered in Phoenix, Arizona, USA, Hypercom is independently acknowledged as the leading provider of point-of-sale card payment terminals worldwide. Demand for Hypercom terminals surpassed one million units last year alone. Hypercom today maintains an installed base of more than 5 million card payment terminals in over 100 countries that conduct more than 10 billion transactions annually.
